```

graph TD
    A[Identify the event] --> B[Analyze the impact]
    B --> C[Identify the community]
    C --> D[Identify the impact on the community]
    C --> E[Identify the impact on the individual]
    D --> F[Identify the impact on the community]
    E --> F
    F --> G[Identify the impact on the community]
  
```

Figure 1: A flowchart illustrating the process of identifying and analyzing the impact of a specific event on a community. The process starts with 'Identify the event' (a box), leading to 'Analyze the impact' (a box), which then leads to 'Identify the community' (a box). From 'Identify the community', the process branches into two paths: 'Identify the impact on the community' (a box) and 'Identify the impact on the individual' (a box). Both paths lead to 'Identify the impact on the community' (a box). The final step is 'Identify the impact on the community' (a box).
