This Report

Al-Zaytouna Centre is pleased to present to its readers the Palestine Strategic Report (PSR) 2016–2017, the 10th PSR to be published.

With an academic methodology and comprehensive, objective approach, the report comprehensively details developments concerning the Palestine issue and provides the latest information and data available at the end of 2017, along with analysis and forecasts running into 2018.

This report is the result of collaborative work between 14 experts and researchers. In eight chapters, it addresses the internal Palestinian scene; Palestinian demographic and economic indicators; the situation in Jerusalem and the holy sites; the specifics of Israeli aggression, Palestinian resistance and the peace process; the complexities of Israeli-Palestinian dynamics, including the internal situation in Israel; and Palestine's Arab, Islamic, and international relations. This tenth PSR volume features an advanced research map and forecasts the most prominent scenarios of relevance to the Palestine issue in 2018 and 2019.

The PSR now occupies a prominent position as an indispensable reference document, integral to Palestine studies and research. Al-Zaytouna Centre hopes the PSR will continue to make valuable contributions in this field.

Dr. Mohsen Mohammad Saleh
